

Target:  
The Power tower in  
the distance

Left Side: O.B.  
Right Side: O.B.

Advice: Don't try to cut the corner, as it's not overly wide over there. Note, it's a full 260 yards to the yellow forward (playing 4) tees you can see in the distance on the left.

Leaving your tee shot on the left side gives you the best angle into the green. Keep your approach shot right and long to be safe, but also note it can be a long putt back to the cup, so consider wisely.

FORE! Not Needed

Target:  
Just right of the second  
bunker from the left  
(Make sure the red flashing  
light has stopped before  
making your tee shots)

Left Side: O.B.  
Right Side: O.B.

Advice: If you can hit it right of the yellow 230-yard flag you will enjoy a good run, but too far right and O.B. is lurking. Select your target wisely. It's 200 yards to reach the bunker on the left from the tee. Keeping your second shot down the left side will give you the best angle into the green for your approach.

FORE! If your tee shot goes left over the trees yell FORE!
